# Limited Duty Officers

00/02/16

- **Promotion Board FY-09**
  - **October 2008 (Major & LtCol)**
  - **September 2008 (Captain)**
  
- **Requirements (Projected today)**
  - **2 LtCols**
  - **3 Majors**
  - **5 Captains**

- **We cannot afford to “buy” the entire requirement, so priorities need to be set.**
- **From a manpower perspective, setting these priorities is called “manning.”**

# Manning...

## From Trooplist to ASR

09/02/16

- DC, CD converts the Trooplist into the Authorized Strength Report (ASR)
- ASR employs modeling algorithms that *optimize* unit manning allocation based on
  - 1) Unit Structure (grade & MOS at an MCC)**
  - 2) Trooplist manning**
  - 3) Special protections**

# Manning Process...

## The Bottom Line

00/02/16

- **Available manning is optimally apportioned across the Corps by DC, Combat Development**
- **Why is this important to monitors?**
- **It is not the role of M&RA to...**
  - **Prioritize requirements or**
  - **Allocate manning**
- **These functions have already occurred in the ASR under the cognizance of DC, CD**

# The Staffing Process

00/02/16

- The objective of the Staffing Process is to make the *optimal* distribution of current assignable inventory to meet the Marine Corps' Authorized Strength Report (ASR) IAW current Marine Corps staffing precedences (MCO 5320.12E)
